

## Got a meeting? Take a walk

### 1. Discuss these questions in pairs/groups.

- How much time do you spend on meetings at work daily/weekly?
- What type of meetings do you have? Are they teleconferences, online meetings, 1-on-1 meetings, kitchen meetings, stand-up meetings? Which ones are most common?
- How much of your day do you spend sitting? Think about your work life, commuting and your free time? Do you think you sit too much?
- Would you prefer to have a job in which you sit, or stand and walk? Why?

### 2. Some people say that there are a lot of disadvantages of working in a modern office. In pairs, create a ranking by putting these disadvantages of office work from 1 (the biggest one) to 8 (the smallest one).

- a) limited or no privacy
- b) too much time wasted on meetings
- c) noise in open-plan offices
- d) too much overtime
- e) health problems due to sitting
- f) a too stressful and dynamic environment
- g) eating snacks and ready-made meals

6. In small groups discuss these points related to the talk.

- Do you agree that sitting is the smoking of our generation? Can sitting really be so unhealthy? If so, what can be done to get us off our duffs?
- Nowadays people are sitting 9.3 hours a day, which is more than we're sleeping, at 7.7 hours. How about you? How much do you sleep vs sit?
- How much sport activity do you do? Do you huff and puff after a 15-minute walk or going 4 stories upstairs?
- Why do you think that walking may stimulate out-of-the-box thinking?
- Can you imagine using walking meetings in your work? What could be the problems and the benefits of such a solution?
- What's the bottom line of this TED talk that you will remember?
